After a successful signup for the beta, the user lands on the parents' start page. Here, a child must first be created. Please add a button directly here with a "+" and "Create child now".

———
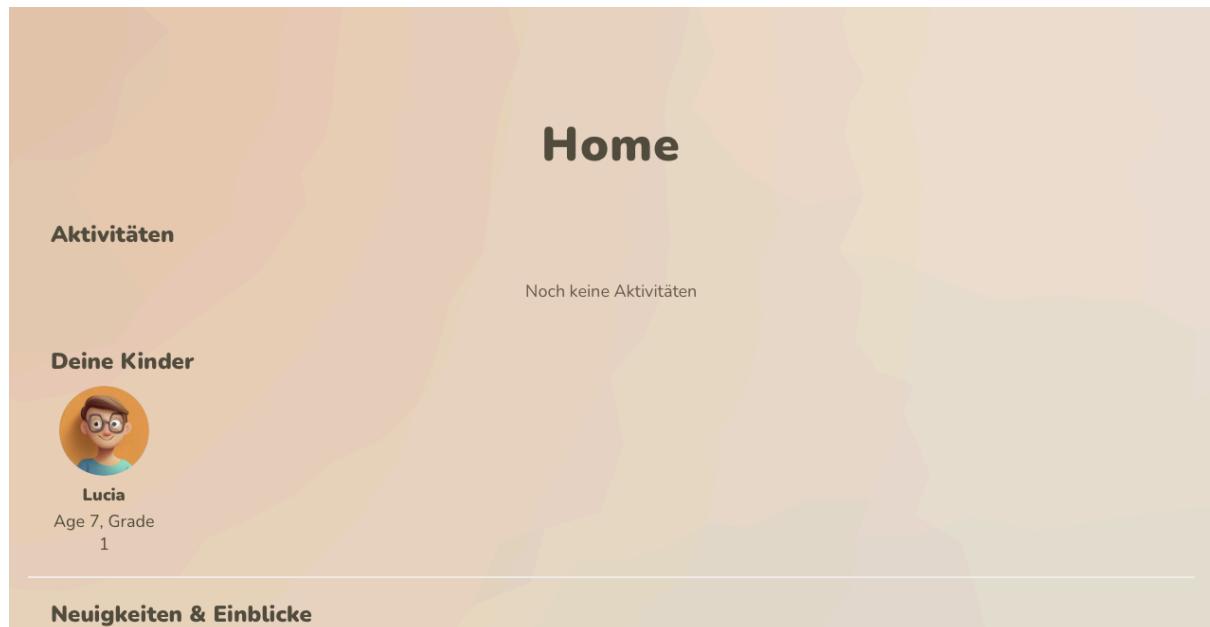

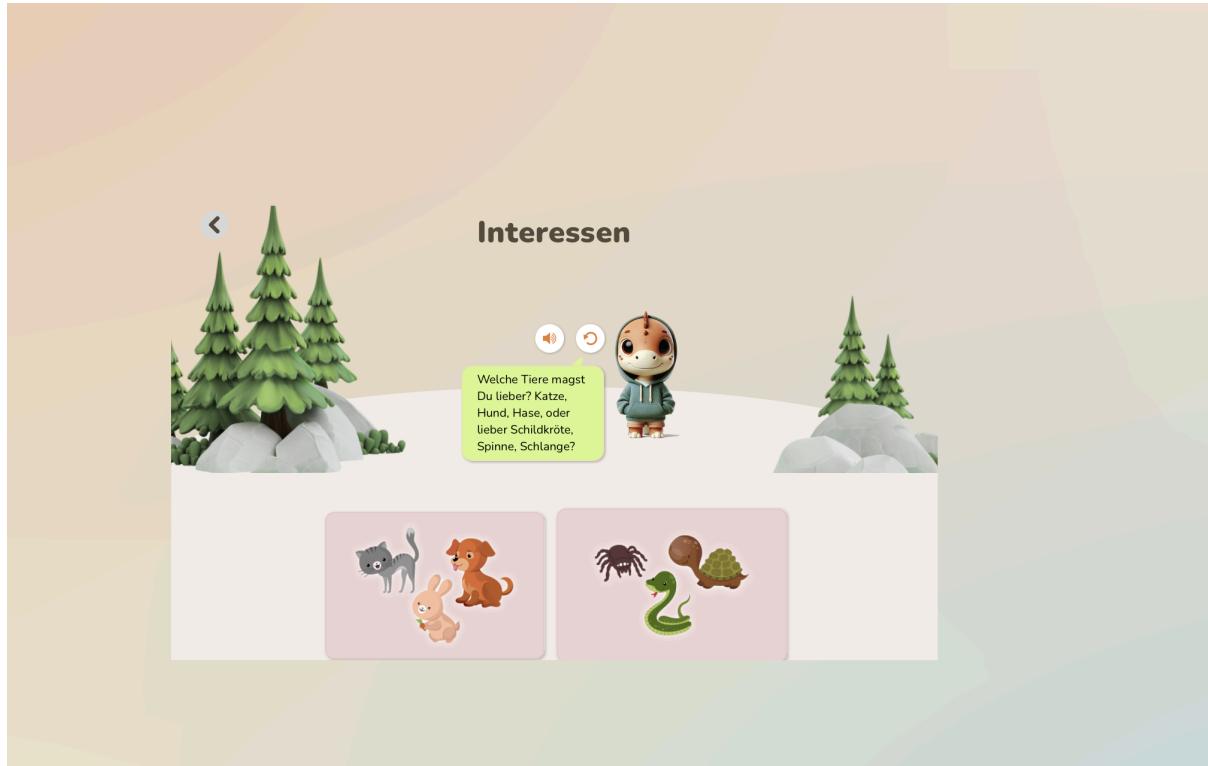

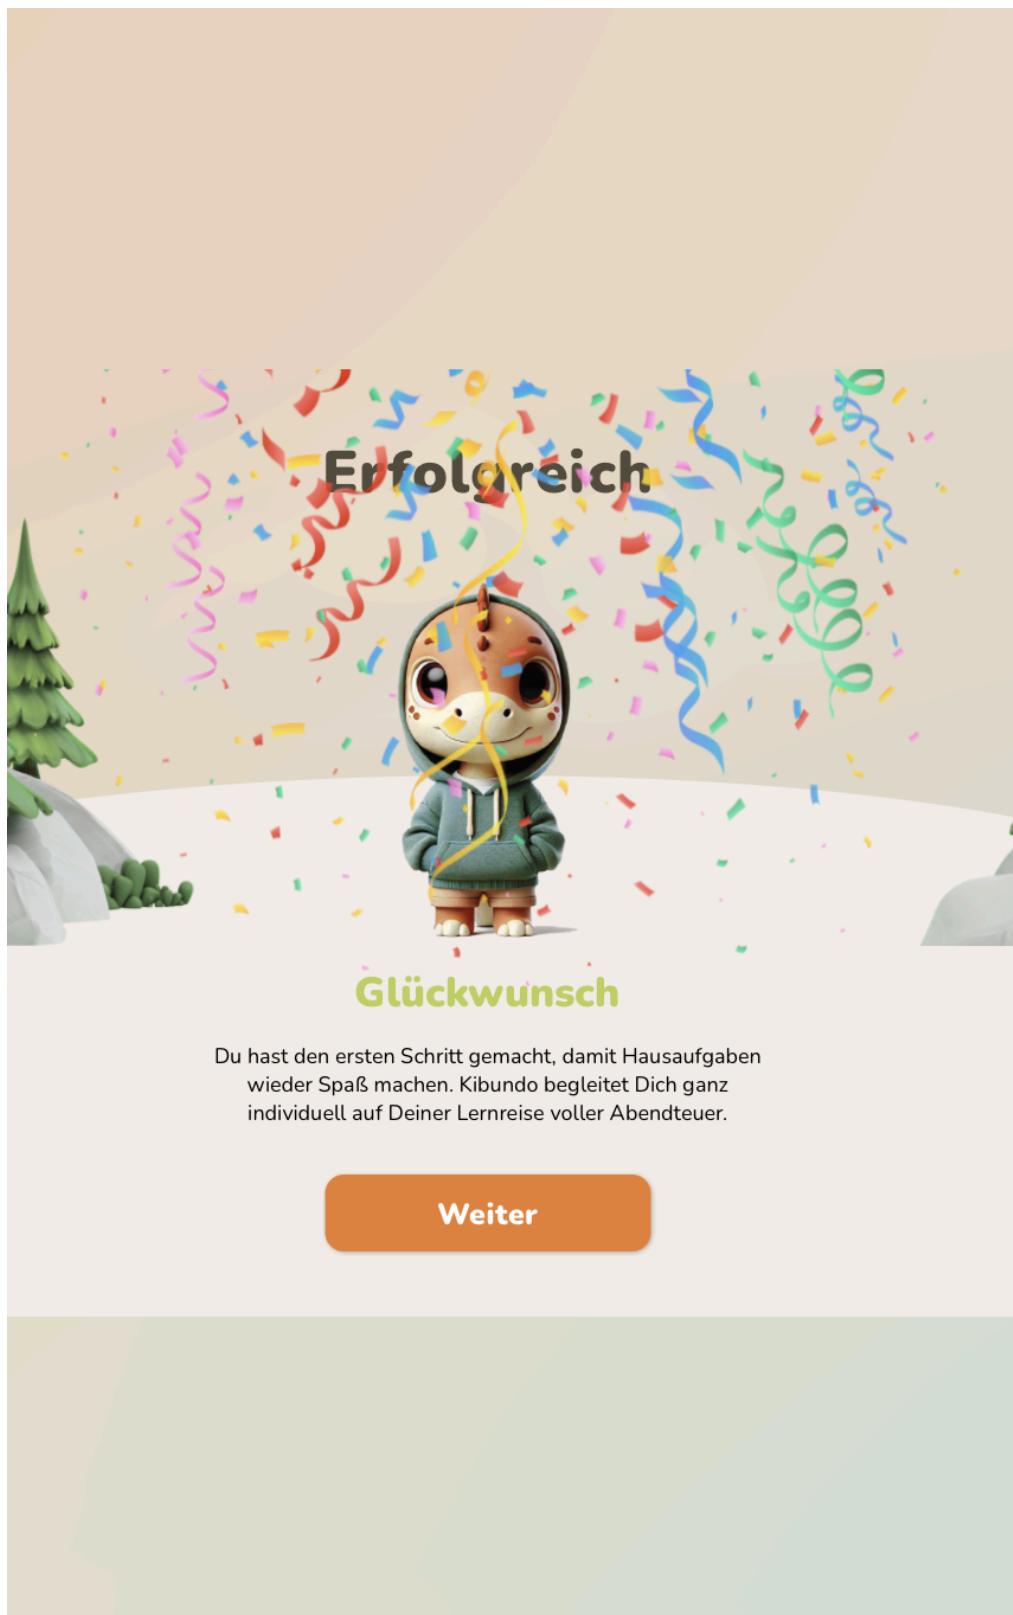

It is very cumbersome and you have to search to find the "Switch profile" button. The option to switch profiles must also be available on the start page in the top right area. Please add this.

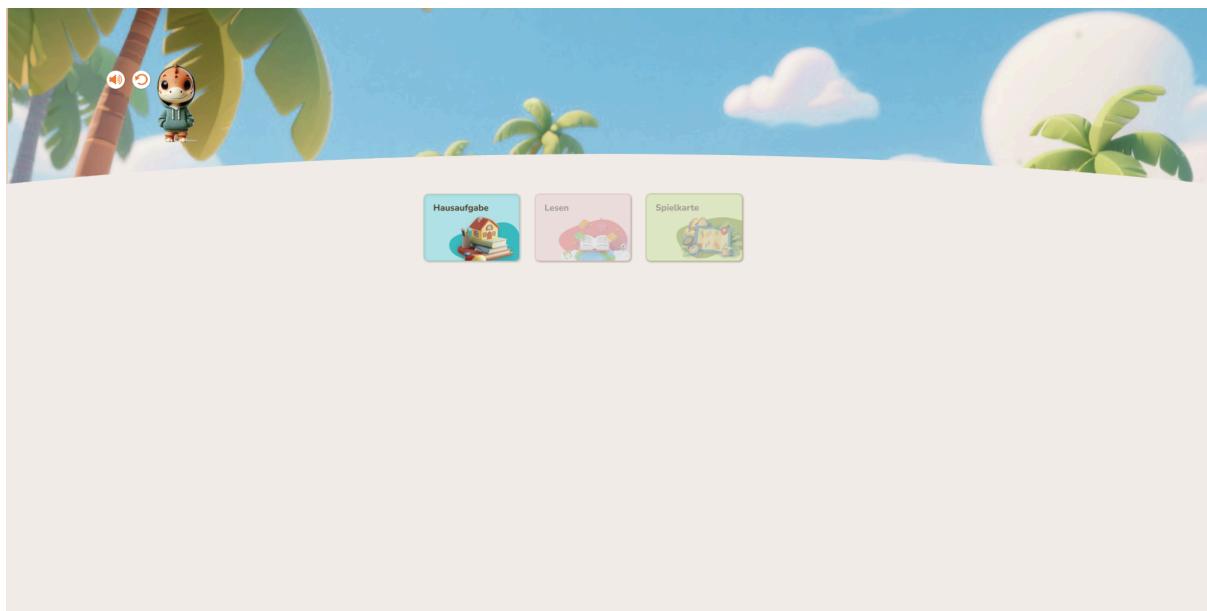

———
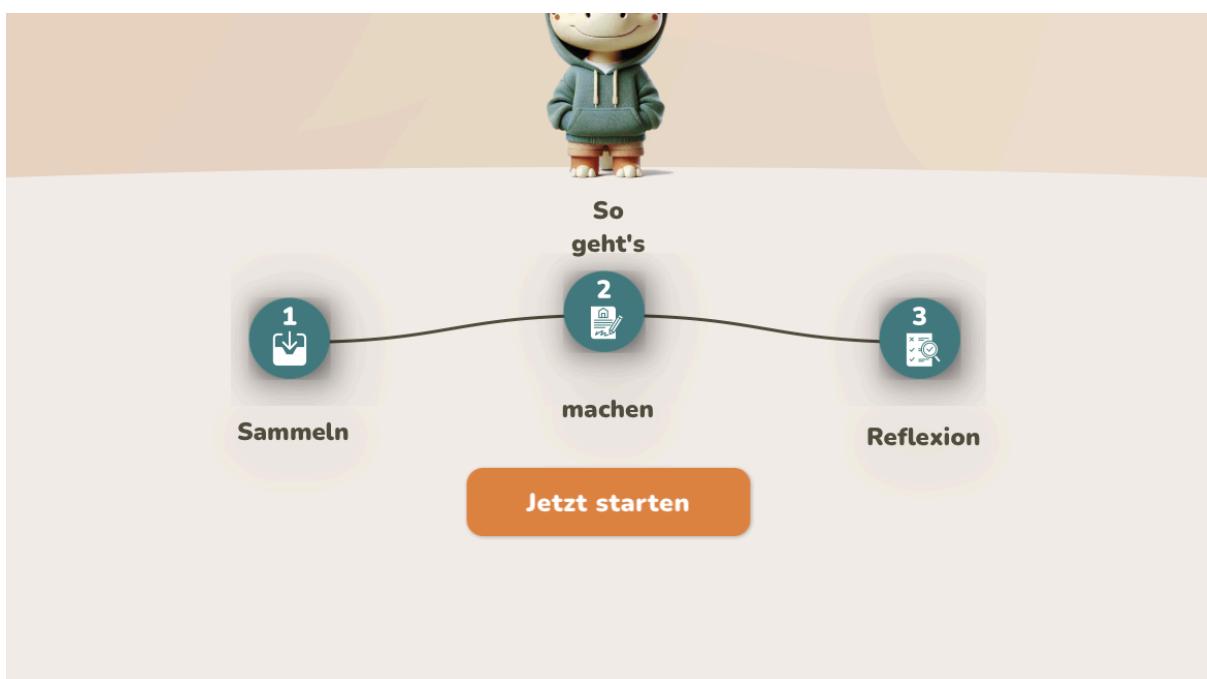

Users primarily use Kibundo on an iPad. However, on a laptop the app should also be displayed in an iPad-like layout so that the graphics are rendered correctly. Currently, everything is misaligned.

——---

The confetti animation does not run smoothly but appears choppy. Please render this cleanly and smoothly.

——

Here as well, on the laptop the display is completely incorrect. Please display everything within an iPad-style window to maintain proper scaling and a clean layout.

The graphics have shadows and are not rendered cleanly. Everything must be displayed perfectly without visual issues.

----

a) 200 : 40 = ___
b) 450 : 50 = ___
c) 210 : 70 = ___
d) 720 : 90 = ___

3 a) 490 : 70 = ___
b) 120 : 60 = ___
c) 140 : 20 = ___
d) 630 : 90 = ___

4 a) Es sind 150. Es sind 3 Gruppen. 150 : 3 = ___
Immer ___ in einer Gruppe.

b) Es sind ___ . Es sind ___ Gruppen.

5 Wie viele sind in einer Gruppe?
a) 200 : 4 = ___
b) 180 : 3 = ___
…

Gefundene Fragen:
- Es sind 120. Immer 30er-Gruppen. 120 : 30 = ___
- Es sind ___ 30er. Es sind ___ er.
- Wie viele Gruppen sind es?
- 200 : 40 = ___
- 450 : 50 = ___
- 210 : 70 = ___
- 720 : 90 = ___
- 490 : 70 = ___
- 120 : 60 = ___
- 140 : 20 = ___
- 630 : 90 = ___
- Es sind 150. Es sind 3 Gruppen. 150 : 3 = ___
- Immer ___ in einer Gruppe.
- Wie viele sind in einer Gruppe?
- 200 : 4 = ___
- 180 : 3 = ___
- 200 : 5 = ___
- 180 : 9 = ___

Kibundo
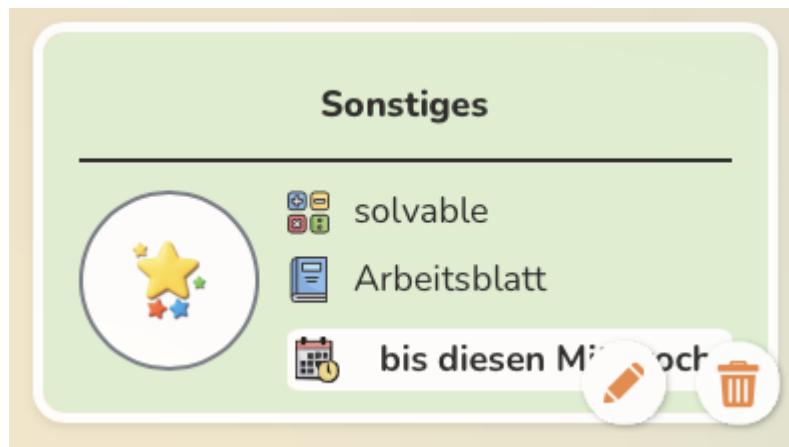

Bitte gib das Abgabedatum für diese Hausaufgabe ein (z.B. "bis diesen Mittwoch" oder "bis 15.01.2025"):

Abbrechen   OK

For children, especially in the first two grades, it is not possible to manually enter a date. Please display the next 7 days as selectable buttons starting from the day the worksheet is scanned. Each button should contain the following format:

Example: Wednesday, 22.03.2026

Seven buttons displayed next to each other, directly selectable. This is manageable for children.

———

Sonstiges

- ⊞ solvable
- 📖 Arbeitsblatt
- 📅 bis diesen Mi...och

The design elements are overlapping.
Additionally, the information from the scanned worksheet has not been adopted.

It must be recognized which subject it is and what the task is.

Example:

Heading: Mathe
Addieren
Arbeitsblatt
Datum

——

📚 **Fach: Mathe**

Gescannte Hausaufgabe:

Dividieren. 1. a) Es sind 120. Immer 30er-Gruppen. 120 : 30 = ___. Es sind ____ 30er. b) Es sind ____. Immer ____er-Gruppen. Es sind ____ __er. 2. Wie viele Gruppen sind es? a) 200 : 40 = ___. b) 450 : 50 = ___. c) 210 : 70 = ___. d) 720 : 90 = ___. 3. a) 490 : 70 = ___. b) 120 : 60 = ___. c) 140 : 20 = ___. d) 630 : 90 = ___. 4. a) Es sind 150. Es sind 3 Gruppen. 150 : 3 = ___. Immer ___ in einer Gruppe. b) Es sind ____. Es sind ____ Gruppen. 5. Wie viele sind in einer Gruppe? a) 200 : 4 = ___....

Gefundene Fragen:

- 1. a) Es sind 120. Immer 30er-Gruppen. 120 : 30 = ___. Es sind ____ 30er. b) Es sind ____. Immer ____er-Gruppen. Es sind ____ __er.
- 2. Wie viele Gruppen sind es? a) 200 : 40 = ___. b) 450 : 50 = ___. c) 210 : 70 = ___. d) 720 : 90 = ___.
- 3. a) 490 : 70 = ___. b) 120 : 60 = ___. c) 140 : 20 = ___. d) 630 : 90 = ___.
- 4. a) Es sind 150. Es sind 3 Gruppen. 150 : 3 = ___. Immer ___ in einer Gruppe. b) Es sind ____. Es sind ____ Gruppen.
- 5. Wie viele sind in einer Gruppe? a) 200 : 4 = ___. b) 180 : 3 = ___. c) 240 : 8 = ___. d) 360 : 9 = ___.

Kibundo
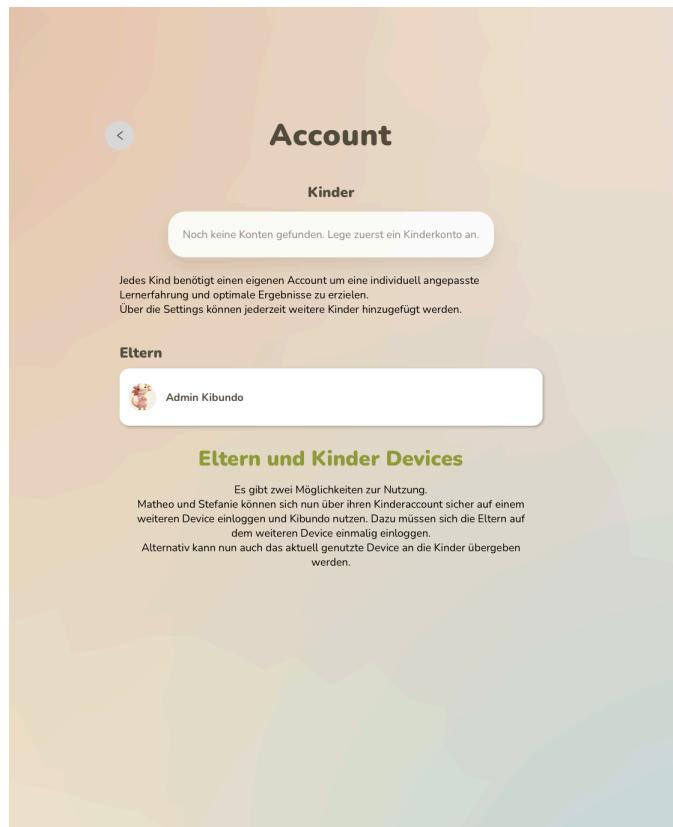

When we scan a worksheet, the system always displays the entire worksheet as text in the chat and reads everything aloud.

Question:

How can we define what is displayed in the chat and what is actually played back via speech output? Not everything that is shown needs to be output via TTS.

━---

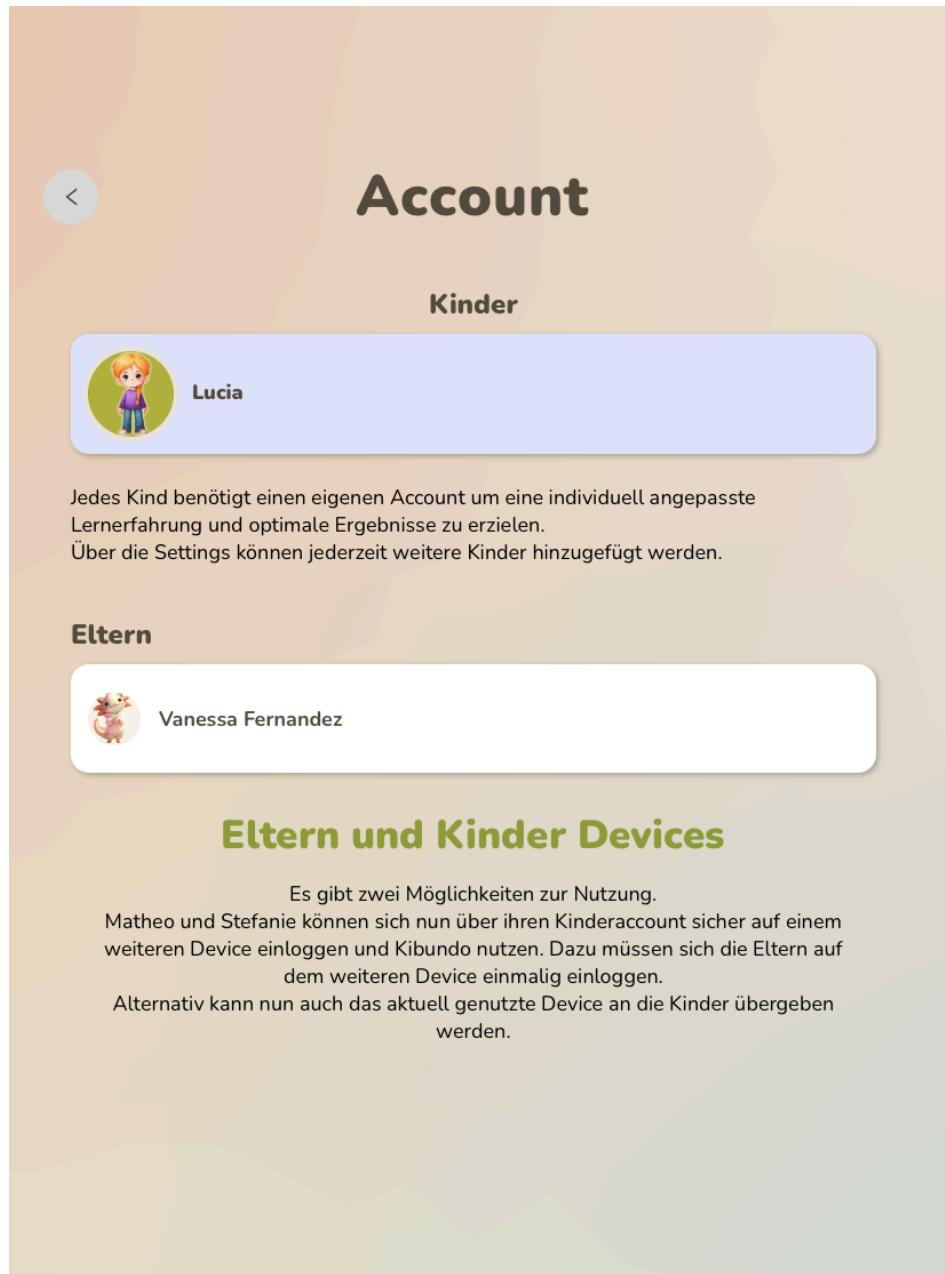

When I go to Settings / Switch profile in the child account, I am taken to the page where the user is selected. However, the user is no longer displayed correctly, see the following image:

Here, the child I was logged in with must be shown again for selection, and in the parents' view no admin account must be suggested.

Exactly this screen must appear here:

＋ Create Agent

We ran a test and deleted all AI agents and created a new one with the name "Test_promt_child". This agent is not being applied. In the chat window, the old agent ("kibundo") is still active, even though it no longer exists. Even logging out and back in did not resolve this. The prompts have no effect and are not being used. This is a problem. We cannot test like this.

d) 270 : 3 = 90
630 : 7 = 90
450 : 5 = 90

Wenn du Fragen hast, lass es mich wissen!
